Procedure for Instruction/
Learning Activities

Day 2-
Teacher provides links to workplace
safety information, that is
searchable by trade areas:
OSHA Job Site Hazard Videos:
<https://www.osha.gov/video/>

Teacher provides students with a
blank Venn diagram graphic
organizer.

Teacher leads a class review of the
information that should be in each
section of the Venn diagram, based
in the workplace safety information
site
Day 3-

Differentiation	Students will be grouped by their abilities and interests. Teacher will provide scaffolded support where needed. Students who have physical disabilities will be accommodated for. Students who are meeting all of the expectations will be challenged to go above and beyond.
Closure	Small groups create an injury scenario. Groups present their scenarios; classmates tell how they would use items from their first aid kits to treat the injury. Exit Ticket Assessment Question
ASSESSMENT	
College, Career, and Life Readiness Skills	See below Based on Middle-level Life/Career Rubrics available at https://nyctecenter.org/middle-level-life-career-rubric-database/rubrics
