Disclaimer

This document provides LEA's with a framework for developing their CAP prior to submission to NYSED and the requirements for an approvable plan for training school personnel and/or health service personnel providing personal health guidance to students. It is intended for use by administrators, school health services personnel and health educators. Every attempt has been made to ensure the information contained in this document is accurate and reflects current best practices. Upon submission, NYSED will review an LEA's CAP to ensure it conforms to CR §135.2(c) (2) (ii). This document is to be used for guidance purposes only except that a CAP may not be implemented until NYSED approves the plan for training, which must meet the requirements established in this document (section e). The CAP and any local instructional strategies developed based upon this document, in whole or in part, should be consistent with local community values and needs and should be reviewed through normal school district procedures, which may include review by legal counsel and the school district's medical director.
