) \$ 6 7aMath (Adaptive Math) is a simple, efficient, fully automated computer adaptive measure of broad math and component skills.) \$ 6 7aMath is designed to identify those students with deficits in math achievement in need of additional instruction and predict performance on state accountability measures. It is individualized for each student, but may be group administered. Items tap a variety of skills including counting and cardinality, operations and algebraic thinking, number and operations in base ten, numbers and operations, measurement and data, and geometry. These assessments adapt and individualize to the skills of each student. Students typically complete the assessments in 20-30 minutes, reducing testing time by up to 50-95% compared to traditional tests. Our extensive research has enabled the aMath test of 30 items to replace a traditional 100-item test, with high accuracy and fully automated administration and scoring of individualized assessments for purposes of universal screening and instructional leveling. It also provides skill-based diagnostic reports of strengths and weaknesses along with progress monitoring and instructional evaluation. 5em ytuniues2.6 (onal
