Dear District Superintendents and School Principals,

As you may know, the 21st Century Community Learning Centers (21<sup>st</sup> CCLC) Out of School Time program, a federally-supported initiative that is funded through grants allocated by the New York State Education Department (NYSED), is a

indicator data, which include evidence of participants' improvement in b (co)-11v. (n)2.3i6r testing for this

spring, as well as the inconsistency with which pre/post report card grades are available throughout the state, NYSED is requiring all 21<sup>st</sup> Century programs in the state to obtain evidence of student outcomes this year through a spring survey of participants' day-school teachers. NYSED is requesting principals' support of these surveys by identifying a school-based liaison who can identify the appropriate teachers.

Finalize pr

(no later than)

Participants' classroom teachers (for elementary students), or math and ELA teachers (for middle/high school students), are requested to complete these surveys, although surveying teachers who also provide services to the 21<sup>st</sup> CCLC program will be avoided where possible.

Program staff will need to work with you or your school-based liaison beginning in early March to identify the appropriate students.

Only teachers of those students who have attended the 21<sup>st</sup> Century program for at least 10 hours at the time the surveys are administered are asked to participate.

Survey instructions, and all surveys, will be delivered via email by NYSED to identified teachers, who can complete them online. No one at your school will need to be involved in survey delivery or collection.

Surveys will be delivered on Friday May 14, 2021, with a completion deadline of close of business on Friday May 28, 2021.

13.1 (s)-1.3-34 (s) Teachers will be responsible for making results available to the appropriate personnel. The information will be used for program evaluation and improvement.
