

Converting CLASS™ Scores to Performance Ratings

Teacher: _____

Observer: _____

School Year: _____

Center/School: _____

Enter the Domain Average for each domain in the boxes below. Divide by 3 to get the Overall Average.

$$\left(\begin{array}{l} \text{Emotional Support} \\ \text{Domain Average} \end{array} \square + \begin{array}{l} \text{Classroom Organization} \\ \text{Domain Average} \end{array} \square + \begin{array}{l} \text{Instructional Support} \\ \text{Domain Average} \end{array} \square \right) \div 3 = \begin{array}{l} \text{Overall} \\ \text{Average} \end{array} \square$$

| Overall Average | Performance Rating Category | Check One |
|-----------------|--|--------------------------|
| 5.00 - 7.00 | Highly Effective The observations found strong evidence of effective interactions | <input type="checkbox"/> |
| | | <input type="checkbox"/> |
| | | <input type="checkbox"/> |
| | | <input type="checkbox"/> |
